TRENTON – New Jersey Republican Party Chairman Jay Webber today released the following statement condemning the negative campaigning of Governor Jon Corzine:

“Governor Corzine and his allies should be ashamed of their tactics in this campaign. New Jerseyans, who continue to feel the pain of the failed policies of Governor Corzine, are looking for a real, open, and honest debate on the issues that affect their everyday lives. Instead, Governor Corzine and his insider friends are engaging in a ‘race to the bottom’ with attack ads meant to deflect from any meaningful discussion about how to make New Jersey better. The people of New Jersey deserve better than that.”
